CHICAGO, April 8 .- A large business was done in wheat and interests centered principally in the July future. Sellers were the most numerous and a lower range of prices was established, in which all futures shared. Operators now being of the opinion that the May deal is over are getting more confident and selling. Parties who would not sell for fear of manipulation heretofore are now selling freely and it was rumored that two prominent flour traders had entered on a bear campaign for July delivery, at least they were reported as being heavy sellers today.
